

SUBMISSION AND EVALUATION GUIDELINES

OPUS KLASSIK 2025

Submissions in the individual categories of the OPUS KLASSIK are based on both digital and physical products by artists as well as projects, compositions, live formats or exceptional achievements in the classical music genre.

All classical music artists who are active in the music scene and the classical music market at the time of submission are eligible for the award, regardless of their nationality. In case of doubt, the categorisation in the Phononet database determines whether an album or concert can be assigned to the classical music genre.

The awarding of one or more prizes in the categories listed below is at the discretion of the jury based on the quality of the projects submitted. There is no obligation to award a prize.

With the submission, the award categories, the submission and evaluation principles and the procedure are recognised. Legal recourse is excluded.

Eligibility to submit

All labels and distributors whose albums are permanently sold on the German market and hold the corresponding distribution rights to the artists' recordings are entitled to submit. Any company can submit any number of albums or video formats. In addition, each submission can be suggested for any number of categories.

Concert promoters, publishers, labels and artists can nominate in all categories that are not pure album prizes (categories 5, 6, 13, 14, 16, 21, 22, 28, 29, 30).

Submission and evaluation periods

The **submission period** runs **from January 31st, 2025 to March 31st, 2025**. The postmark applies to physical submissions. The online submission procedure must be completed by the end of 31 March 2025 and, in case of doubt, must be documented with a confirmation email. Submissions received after 31 March 2025 or incomplete within the submission period cannot be considered. Late deadlines will not be approved.

The **evaluation period** for the OPUS KLASSIK 2025 is between **March 1st, 2024 and March 31st, 2025** for both published recordings and live formats and projects. The albums must contain recordings released for the first time during the evaluation period, which must account for at least 50% of the total playing time of the release. Products or projects submitted in the previous year may not be resubmitted. If no reviews for submissions of current releases are available by the submission deadline, these can be submitted at: info@opusklassik.de by April 30 2025.

Form of submission

All submission for the OPUS KLASSIK are made via an online submission system:

<https://opusklassik.de/einreichung/>

In principle, all sound recordings are submitted digitally. When submitting, the corresponding link must be entered under which the album is available on a streaming provider such as Apple Music. If there is no release on a streaming service, a download link must be entered in the corresponding field.

Reviews

Each submission consists of the completed online submission and **two outstanding reviews**, unless other requirements are defined in the respective category.

An outstanding review is an above-average review of the submitted publication in a digital medium (e.g. digital editions of magazines, daily newspapers or qualified web forums) or a print medium (e.g. daily press, weekly press, magazines). Reviews on the radio or in a TV report must be documented with a link, a recording or a copy of a broadcast transcript. The publication must be rated in the review. Interviews or concert reviews in which the release is merely mentioned as well as reviews in social media, on YouTube/Vimeo/Amazon or similar platforms and in in-house publications are not accepted.

Reviews are only valid in German and English - if the review has been published in another language, the original review must be submitted with a translation in German or English.

Fees

A one-off processing fee of 60.00 euros (including VAT) will be charged for each submission (not applicable for categories 6, 28, 29 and 30). If a sound carrier is proposed for several categories, no additional costs will be incurred. The fee must be credited to the account of the Gesellschaft zur Förderung der Klassischen Musik gGmbH no later than 14 days after receipt of the invoice. Submissions for which the fees have not been paid on time cannot be considered.
